### Ideal for

- Education providers
- Student accommodation managers
- University housing officers
- Facility managers
- Investors in purpose built student accommodation

Global student accommodation project planning operational management experts

Auskor Australasia offers clients access to the technical skills required to improve an existing student housing interest or to plan, design and deliver a financially viable, purpose built, student accommodation project.

With extensive experience in operating large scale student accommodation for both education providers and the commercial sector, Auskor Australasia offers clients global reach and extensive international experience, including project work in Asia and the Middle East.

If you are passionate about professional student housing management this workshop is a must.

### Client Testimonial

*I cannot help but wonder whether you have considered producing your own series of 'student hostel impossible'. Award and acclamation surely awaits you."*
